

Ryan Shee

Software Engineer, Frontend

San Francisco, CA · ryan@ryanshee.com · (415) 509-0990 · linkedin.com/in/ryanzshee

PROFESSIONAL EXPERIENCE

Meta (via Tundra Technical Solutions)

Software Engineer (Contract) · Oct 2025 - Apr 2026

- Improved React UI workflows for Meta Horizon by implementing real-time asset download progress and simplifying complex modal state logic
- Increased automated test coverage from 40% to 80%+, reducing build failures by 30%
- Improved deployment safety by removing legacy code and introducing feature flags for controlled rollouts

Capital One

Senior Associate Software Engineer · Jan 2022 - Oct 2024

- Owned frontend for homepage, dashboard, and asset management and search, on a high-visibility internal digital asset platform (12,000 DAU), serving as primary UI contact and translating third-party requirements into scalable, design-system-aligned solutions
- Owned frontend delivery of a task management application from prototype through launch, partnering with third-party teams early to define requirements and incorporate stakeholder feedback throughout development
- Increased automated test coverage across team applications, improving reliability and platform compliance

Lumos Labs

Software Engineer II · August 2020 - December 2021

- Developed gameplay experiences and features for Figment, Lumosity's new standalone creativity training app in Unity
- Designed and implemented an in-app A/B testing framework, increasing DAU by 13%
- Built a daily streak system to drive engagement, improving retention by 9%
- Optimized user onboarding UX via iterative experimentation, improving Day 1 retention by 12%

Software Engineer I · May 2019 - August 2020

- Contributed to development and App Store release of a standalone version of Lumosity's most popular game using Cocos Creator
- Implemented gameplay enhancements and critical bug fixes across eight live games, improving stability

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, C++

Runtime & Tooling: Node.js, npm

Game Development: Unity (C#), Meta Horizon, Cocos Creator

EDUCATION

B.S. Computer Science

University of California, Santa Cruz · 2014 - 2018
